Designed to empower.

Fronius Primo GEN24 and GEN24 Plus

Product advantages

01 Backup power for every situation
02 Built-in freedom
03 Versatility as standard
04 Sustainably future-proof
05 Maximum independence

The heart of the photovoltaic system

01 Backup power for every situation

A reliable energy supply: the Fronius GEN24 offers just that with an integrated basic backup power function, the PV Point. With the Fronius GEN24 Plus, you can choose between the PV Point and the Full Backup option, which provides backup power for the entire home.

02 Built-in freedom

The Fronius GEN24 and Fronius GEN24 Plus have open interfaces. This makes it easy to integrate components from Fronius or third-party suppliers for a tailor-made photovoltaic system.

03 Versatility as standard

More functions. More control. More power. Thanks to their energy management functions, the Fronius GEN24 and Fronius GEN24 Plus continuously save time and money. What's more, the integrated active cooling extends the service life of the inverter, protecting your investment for many years to come.

04 Sustainably future-proof

For those who don't want to decide right away: With the Fronius UP.storage* software upgrade, the Fronius GEN24 can be retrofitted with a battery connection and therefore the Full Backup power supply at any time.

05 Maximum independence

By combining the Fronius GEN24 Plus with a battery, you can get even more out of your photovoltaic system, even at night. Use more of your own electricity and become more independent of electricity providers and prices.

** Available in the Fronius webshop in selected countries.*

2

The Fronius GEN24 is available in two versions:

– As an inverter: Fronius GEN24

integrated backup power function

– As a hybrid inverter: Fronius GEN24 Plus

battery connection

two backup power options

Sustainable, reliable, future-proof:

With our Fronius GEN24 inverter at the heart of the photovoltaic system, energy can be generated flexibly and inexpensively. The Fronius GEN24 Plus hybrid inverter even allows a battery storage system to be connected, so the solar energy generated can be used for electricity, heating, cooling, and e-mobility even at night. Full solar power for the private energy revolution with the Fronius GEN24 and the Fronius GEN24 Plus. Designed to empower.

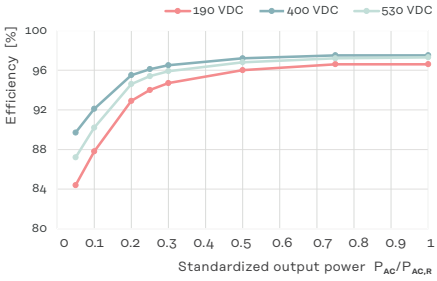
Impressive Power Data

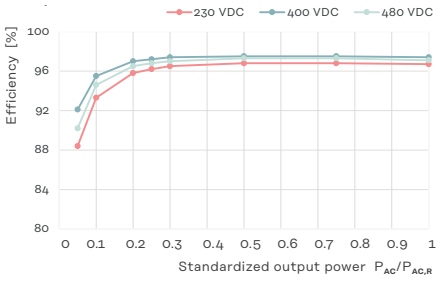
The Fronius GEN24 and Fronius GEN24 Plus impress with premium efficiency and maximum power at high temperatures.

Efficiency

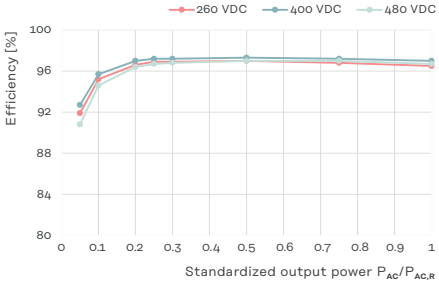
Fronius Primo GEN24 3.0 Plus — Efficiency curve



Fronius Primo GEN24 6.0 Plus — Efficiency curve

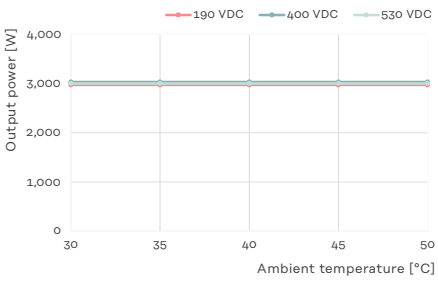


Fronius Primo GEN24 10.0 Plus — Efficiency curve

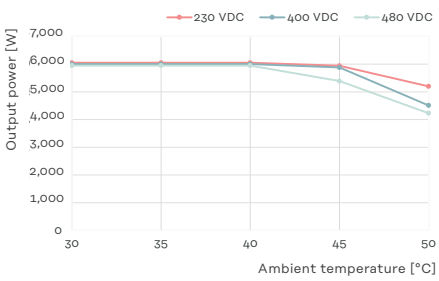


Power derating

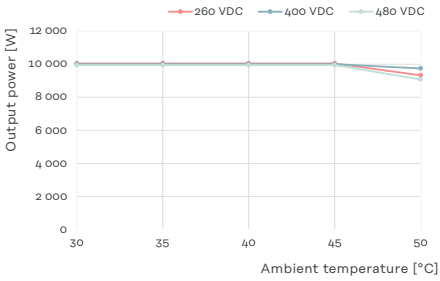
Fronius Primo GEN24 3.0 Plus — Temperature derating



Fronius Primo GEN24 6.0 Plus — Temperature derating



Fronius Primo GEN24 10.0 Plus — Temperature derating



Multi-award-winning

Impressive efficiency

For the fifth time in a row, the Fronius GEN24 Plus and BYD Battery-Box Premium have proven to be among the most efficient solutions in the Energy Storage Inspection 2024. The Energy Storage Inspection is carried out annually by HTW Berlin and is considered Europe's most important study on the efficiency of PV storage systems.
